

Our Services

We have 4 Jet Edge Waterjet Tables

A-Table -72" x 120" With Dual Heads

B-Table -72" x 144" With Dual Heads

C-Table -120"x 240" With Quad heads

D-Table -168"x 240" With Dual 5 axis Heads

Great for Beveling(45deg) for Weld-preps and Chamfers.

D-table is also equipped with a drill from fragile materials that cannot be pierced such as fiberglass and G11.

*We can cut a variety of materials from Carbon Steel, stainless, Aluminum, Titanium, Plastic, Copper, Brass, Stone, Tile, Wood, Lexan, (Some Glass), Neoprene Rubber, and many others!
Our Waterjets can cut material from .001" thick to 18" thick and everything in between!*

Press Brakes

~ 175 Ton 8'-0"

~ 325 Ton 14'-0"

We have a wide variety of tooling to bend parts to many different parameters.

Surface Grinding Services

11" x 22" Precision Surface Grinder

This grinder can hold even higher flatness and parallel tolerances than the Blanchards, and can hold thicknesses within .001" of an inch

Stress Relieving

Lucifer oven with a 36" x 36" chamber.
Our oven can anneal and stress relieve steel.

Blanchard Grinders

We have a 36" and a 48" dia Grinders that can grind Carbon steel and some Stainless steel that's magnetic (17-4 ph) down to your Specific Thickness within .002" thousandths of an inch all while holding high flatness and parallel tolerances.

Time Saver

Time Saver Capacities: 36" Wide

We can provide many finishes from a rough brush finish to a polished finish.

Band saws

Great for cutting tubing, "I" beams, and angle iron to desired lengths.
Our bandsaw can cut all materials from plastic to stainless steel.
